2. I woke you this morning at three A.M.
You breathed in my hair you said well here we go again
Mmmmm nothing is easy this I know
But I'll make it till dawn if you rock me slow
I woke you this morning at three A.M.
3. There ain't nothing like a man to hold you when you're down
And girls I know I done investigation I done my checkin' round
Take my head in both of your hands
Kiss me as hard as hard as you can
There ain't nothing like a man to hold you when you're down
4. I was feeling weak but your kisses made me strong
And I will love you as hard as this this night is long
Pay attention Baby, listen up well
I will tell you my secrets the ones I never tell
I was feeling weak but you kisses made me strong
And there ain't nothing like a man to hold you all night long
No there ain't nothing like a man to love you all night long
